

California OES Weather Threat Briefing

Saturday, June 6, 2020
9:00 AM PDT

- **Day 1 (Saturday):** Gusty winds will continue across much of the state, with the strongest winds in the mountains and in inland portions of Southern Region. The chance of showers and thunderstorms will continue today, primarily across northern CA. Minor winter weather impacts are possible on the higher passes of northern CA tonight.

WEATHER KEY POINTS

06/06/20 - 06/12/20

Saturday-Sunday

- Gusty winds will continue through the weekend across much of the state, with the strongest winds in the mountains and inland portions of Southern Region
- An increased chance of showers and thunderstorms is expected through the weekend, especially in northern CA
 - Gusty winds, small hail, and brief heavy rain are possible with some thunderstorms
 - Snow levels will lower Saturday into Sunday, with slippery roads and minor slush accumulation possible on the higher passes of the Coastal and Inland Regions

Monday-Friday

- Gusty winds will continue Sunday night into Monday across portions of Southern Region, as a Santa Ana wind event develops across the area; these winds will likely decrease a bit Tuesday, but remain breezy
 - These gusty winds, combined with dry relative humidities, will also create elevated fire weather concerns
- Drier weather is expected for the most of the work week, with a warming trend through at least midweek
 - Low to moderate heat impacts could return to portions of the state as early as Tuesday, becoming a little more widespread Wednesday
